

## CANADIAN BEESWAX CANDLES

Beautiful natural 100% Canadian beeswax candles are calming and balancing. It is said that burning a beeswax candle in the bedroom for 30 minutes before going to sleep will result in a more restful sleep.

Beeswax candles will sweeten the room with the pure scent of honey, and are a natural deep golden yellow colour that varies depending on the bees' source of pollen and nectar.

These candles burn cleaner and longer than paraffin wax and are virtually dripleless in a draft-free environment. Unlike paraffin wax candles that produce toxic fumes\* when burned, beeswax candles are non-allergenic and produce negative ions that circulate in the room and attract and neutralize pollutants such as dust, odours, mould, bacteria, viruses and other toxins.

“Just as a candle cannot burn without fire,  
we cannot live without a spiritual life.” -  
Buddha

### How to care for your candles:

Hugging your candle - as the candle melts, “hug” your candle by pushing the soft walls of the candle inwards, keeping the melted wax from dripping over.

To prolong the life of your candle keep the wick at about 1/4 inch high, trimming with scissors if necessary.

When you can no longer burn the candle, break up the remaining beeswax into small bits and add to a new candle.

Candle burn times are approximate. Candles burned intermittently will last longer than one burned continuously. Temperatures of the environment will also effect the burn time of each candle. To extend burn times, chill candle before lighting.

Over time, a beeswax candle will get a frosted look, which is a natural process called 'bloom' that shows the candle is pure beeswax. To restore the shiny surface, you can rub it with your warm fingers, or use a hair dryer to gently melt the bloom.

“Thousands of candles can be lit from a single candle, and the life of the candle will not be shortened. Happiness never decreases by being shared.”

“When was the last time you spent a quiet moment just doing nothing – just sitting and looking at the sea, or watching the wind blowing the tree limbs, or waves rippling on a pond, a flickering candle or children playing in the park?”
